

Data requests to RACE

ECATS

Brussels, Belgium

21 April, 2005

Argonne National Laboratory

*A U.S. Department of Energy
Office of Science Laboratory
Operated by The University of Chicago*

Status

- **Available accelerator information has been sent**
- **Important information from NETL (U Texas) has been sent**
 - SAR
 - Rod worths
 - Grid plate drawing
 - Core fuel locations and burnup
 - Limited power/temperature data (more has been requested)
- **Made simpler because NETL and Casaccia virtually the same**

Status (2)

- **TAMU has sent a thesis with much reactor information**
- **TAMU is in process of gathering the rest**
 - SAR
 - Rod worths
 - Core data
 - Feedback
- **Hopefully will be sent in April**

Status (3)

- **Other requests (e.g., transient data) have not been addressed**
- **Suggest to spend the rest of this time to re-compile and re-prioritize the data requests**
